Milnerton by Lamitak

From lamitak, www.lamitak.com, www.facebook.com/lamitak.studio

For that rustic, vintage or craft look, Lamitak's Milnerton laminate is the ideal surface. Its weathered timber effect, with deep grooves and multiple brush strokes evokes a cosy, timeworn aesthetic. Inspired by Burano Island's row houses near Venice, Milnerton is one of the many textured designs from Lamitak, perfectly scaled for small spaces.

A large white geometric outline is centered on the page. It is a complex shape with five vertices, resembling a stylized house or a diamond with a vertical line through its center. The background is a dark, textured wood grain.
